PROFESSIONAL SUMMARY

Aspiring Computer Science and Engineering student with a strong foundation in Java, Cloud Computing, Python, SQL, C Programming, HTML, Hadoop, Hive, and AWS Platform. Possesses intermediate-level experience in Data Analytics using Jupyter Notebook and Anaconda for data processing and analysis. Passionate about leveraging technical and analytical skills to develop innovative solutions and solve real-world problems. Eager to contribute to dynamic projects, enhance expertise in software development and cloud technologies, and continuously learn emerging technologies in the IT industry

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python (Basic), C Programming (Basic)

Web Technologies: HTML, CSS

Database: SQL, MySQL

Cloud & Tools: AWS Cloud Computing, AWS EC2, AWS S3, GitHub

Core Concepts: Data Structures and Algorithms, OOP, Problem Solving, DBMS

INTERSHIPS & CERTIFICATIONS

AWS Cloud Computing Virtual Internship – NASSCOM FutureSkills Prime

- Completed a one-month virtual internship focused on AWS Cloud Computing.
- Worked with AWS services including EC2 and S3.
- Learned cloud deployment, scalability, storage, and cloud security fundamentals.

Cloud Computing Internship – Cloudsteir Solutions Pvt. Ltd.

- Gained hands-on experience in cloud infrastructure and deployment models.
- Explored cloud security concepts and cloud-based application deployment.

Data Analytics Internship – Smart Yugam Academy

- Gained hands-on experience in Data Analytics using Anaconda, Jupyter Notebook, Power BI, and Tableau.
- Learned data preprocessing, data visualization, dashboard creation, and analytical techniques for business insights.
- Successfully completed an end-to-end Zomato Data Analysis project involving data cleaning, exploratory data analysis (EDA), visualization, and visual storytelling to derive meaningful insights from real-world data.

PROJECTS

Healthcare Management System Using AWS

- Built a cloud-based healthcare application using AWS EC2 and S3.
- Improved scalability and accessibility through cloud deployment.
- Implemented secure patient data storage concepts.

Zomato Data Analysis and Visual Storytelling

- Performed end-to-end data analysis on Zomato restaurant data using Python, Jupyter Notebook, and Anaconda.
- Conducted data cleaning, exploratory data analysis (EDA), and visualization to uncover restaurant trends, ratings, customer preferences, and pricing patterns.
- Created interactive dashboards and visual stories using Power BI and Tableau to present actionable business insights and support data-driven decision-making.

AI-Powered Mobile Platform for Sports Talent Assessment

- Developed an AI-based platform for sports talent assessment using Machine Learning and Computer Vision techniques.
- Analyzed athlete performance metrics and generated AI-driven performance scores and personalized feedback.
- Selected for the Smart India Hackathon 2025 and recognized for its innovative approach to athlete evaluation and talent identification.

EDUCATION

Kathir College of Engineering, Coimbatore | 2023 – 2027

B.E. Computer Science and Engineering | CGPA: 8.0

Government Higher Secondary School, Kunichi | 2021 – 2023

HSC | Percentage: 72.1%

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I take full responsibility for the accuracy of the details furnished in this resume.
